

1. How was the difficulty of PA 3 for you?

It took me some time to understand the concepts used in PA3. I had some difficulty in understand how the overlaying worked at first but I familiarized myself with it after working with it for a few days.

2. How much work (in terms of hours or days) did it take you to finish PA 3?

It took me about a week before I had a grasp of the PA.

3. How interesting or engaging was PA 3 for you (i.e., what did you like about it, if any)?

I somehow enjoyed playing with the image module which was always used in this PA.

4. How did you feel about the dependency of the later PA 3 items on the earlier ones?

I like how some questions are dependent on the previous codes since if I am able to finish the first one, I can somehow get a grasp on the next question.

5. How much did Lectures 3 and 4 help to prepare you for PA 3?

They were very helpful to me in understanding the concepts used in this PA.

6. How much did PS 2 help to prepare you for PA 3?

Having done PS2, I can say that it prepared me for the occassional recursion uses.

7. How can PA 3 be improved? If you think PA 3 cannot be improved any further, state so.

I think it cannot be improved any further.

8. Other comments about PA 3 and PS 2 (if any)

None
